

## **TOPH-Electronic Press Kit**

Toph grew up in the small ski-town of Nederland Colorado and as an act started in 2018. He has been making music his whole life in various bands, musicals and choirs, but picked up the ukulele in 2014 while backpacking in Australia.

After coming back to the United States and moving to Grand Junction Colorado in 2016 he started to develop his act using guitar, ukulele, vocals a variety of percussion and made the leap for his solo act. Toph has played all over Colorado and Utah and continues to hone his performance in a unique blend that provides a full and invigorating sound.

Toph has a passion for all genres of music and his tones have found a way to fill a wonderful ambiance for many private events, wineries, breweries, and music festivals.

### **Reviews:**

- "Toph has played for several Art Center events. And each time, we've been thrilled by his performance, and the crowd's response. Toph's unassuming demeanor in person belies the dynamic performer and outstanding musician that emerges once he picks up an instrument and "takes the stage." The Art Center will always jump at the chance to feature Toph at an event or opening."  
Lee Borden-Executive Director  
Western Colorado Center for the Arts
- "We absolutely love having Toph play at our distillery! He's got amazing talent with so many instruments, a great voice, and is a truly earnest musician and professional. We'd recommend him to anyone looking for great entertainment and a unique sound from our home in the Grand Valley."  
Dylan-Highlands Distillery
- Toph has played our venue twice in the past year. He is professional, courteous and diligent. Our small town crowd very much enjoyed his looping and classic covers. We're looking forward to his next visit to Paonia.  
Michael-Paonia Brewery, PUB
